

Hello,

My name is Dave Smith, My call is KC8PCL, I am a tech, level
amateur radio operator. I am in full support of removing the code
as a requirement to advance to a General level, I will learn the
code in due time, Because I want to be able to communicate with
others that use the code. All the name calling, and outright insults
that are being spoken on the air, as well as the internet have to
stop, It is tearing the entire amateur radio service apart. The removal of the
code as a requirement should be resolved as soon as
possible. Thank you for allowing me to reply to this Very important
matter.

Respectfull, David M. Smith

KC8PCL
